ABOUT US

Since 2019, TURON STAL PROFIL LLC has specialized in the production of galvanized steel coils with thicknesses ranging from 0.3 mm to 1.5 mm, galvanized drywall profiles—including wall studs, ceiling profiles, guide tracks, steel strips—and steel sheets in various thicknesses and sizes. All of our products are manufactured from high-quality, durable raw materials to ensure outstanding performance and reliability.

Today, the company holds approximately 25–30% of the Uzbekistan market. Our primary goal is to provide customers with high-quality products delivered on time and at competitive prices. TURON STAL PROFIL LLC offers innovative and efficient solutions for the development, manufacturing, and supply of steel products for the construction industry.

Our product portfolio includes more than 10 industrial product types. The company's diversified operations encompass a wide range of metal processing technologies, enabling us to meet the diverse requirements of customers across various industries.

"TURON STAL PROFIL LLC" is supported by a team of highly qualified professionals with many years of industry experience. Our main production facilities are located in Tashkent, Uzbekistan. Today, the company exports its products to three countries, reflecting the growing international trust in the quality of our products.

Our mission is to provide customers with modern, technologically advanced, and high-quality steel products for the construction and industrial sectors.

When you choose "TURON STAL PROFIL LLC", you choose quality, reliability, and professionalism.

OUR KEY ADVANTAGES

Production

Continuous improvement of production technologies, equipment modernization, and ongoing professional development of our employees enable "TURON STAL PROFIL LLC" to manufacture products that meet the highest standards of quality and reliability. We continuously optimize our production processes to improve operational efficiency and ensure a stable and reliable supply of our products.

A Customer-Focused Approach

We offer customized terms of cooperation tailored to each partner's requirements. This includes flexible pricing arrangements, the manufacture of custom products based on the customer's technical specifications, a personalized approach to delivery logistics, and the prompt resolution of legal and accounting matters. Our customer-focused approach ensures efficient collaboration and long-term business partnerships.

Reliability and Efficiency

Our state-of-the-art production lines, highly skilled workforce, and efficient management system enable us to ensure a continuous supply of products and build long-term business partnerships. For this reason, customers choose "TURON STAL PROFIL LLC" as a trusted supplier of galvanized steel products and steel solutions.

OUR PRODUCTS?

Galvanized Steel Strip Coils

High-quality galvanized steel products that provide reliable corrosion protection and an extended service life. They are widely used in construction, the fabrication of steel structures, and a wide range of industrial applications.

Galvanized Drywall Profiles

Reliable galvanized profiles designed for the installation of drywall systems in interior finishing applications. They provide exceptional strength, stability, and long-lasting performance.

01

Galvanized Steel Strip Coil

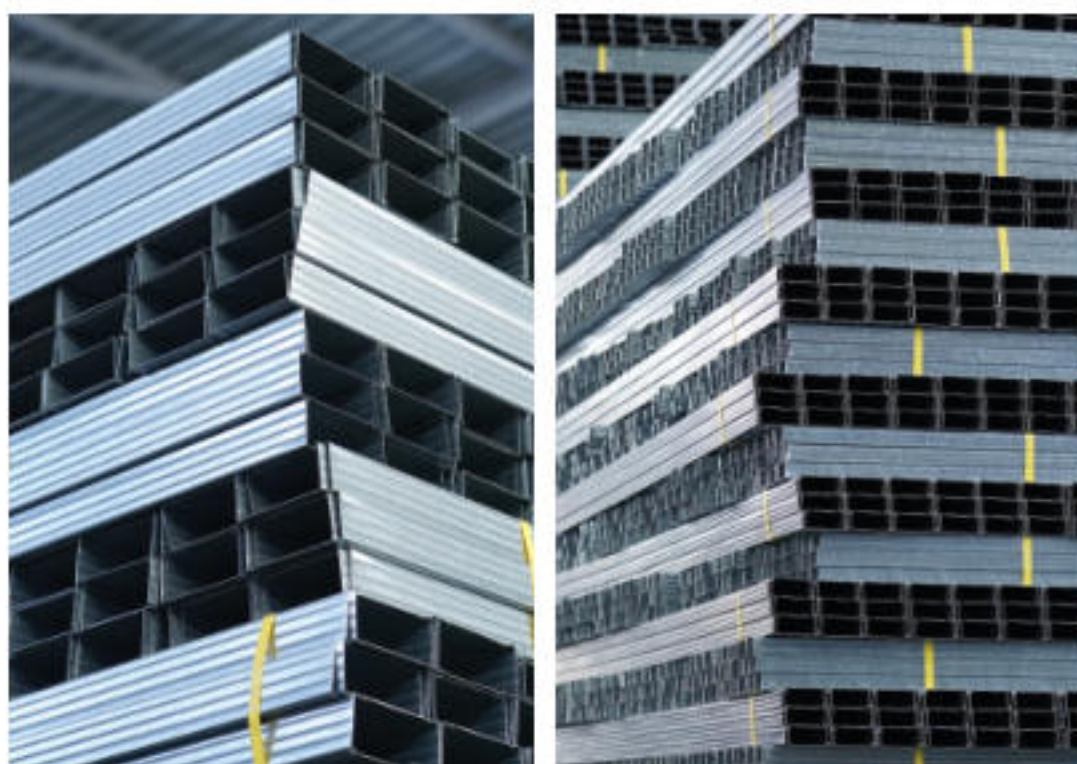

Galvanized steel coils and strips are widely used steel products designed for a broad range of applications. The galvanized zinc coating provides excellent corrosion resistance, ensuring enhanced durability and a longer service life.

Thickness:	0.3-2 mm
Steel Strip Width:	30-519 mm
Zinc Coating:	40-100 mg/m ²

02

Galvanized Steel Profiles

Galvanized steel framing profiles are designed for the installation of drywall systems, including walls, ceilings, partitions, and decorative elements. A protective zinc coating provides excellent corrosion resistance, extending the service life of the profiles and ensuring long-lasting performance.

Thickness:	0.3-0.6 mm
Length:	3 000-5 000 mm
